## Current Vacancy

Technician  
Cathodic Protection  
Oil & Gas

### Who we are

BPA, owned by BP and Shell, is the UK's leading provider of engineering and operational services to clients in the onshore oil and gas pipeline and terminal sector.

### Selection process

Our recruitment and selection processes are designed to ensure fairness and consistency when selecting the right person for the job.

We use competency based interviews and technical assessments to determine what you understand about the role and what you can bring to BPA.

### BPA Rewards and Benefits

Competitive pay  
25 days holiday  
GPPP pension  
Bonus scheme  
Life assurance  
Childcare vouchers  
Excellent opportunities for training and development

### How to apply

If you are interested in any of BPA's vacancies, please email your CV, stating your salary expectations to [hr@bpa.co.uk](mailto:hr@bpa.co.uk)

It is our aim to acknowledge your applications within 48 hours of receipt and we will contact you again should your application be shortlisted for an interview.

BPA currently seek to recruit a CP Technician to maintain Cathodic Protection systems that are installed to protect the oil and gas pipelines and their associated facilities across the UK and overseas. This is as part of the BPA pipeline portfolio and also external project requirements.

### Duties will include:

Conducting routine CP monitoring of the BPA managed pipeline systems.

Management of the CP database including data input, data review, modifications, KPI performance.

Supervise site CP engineering construction.

Represent the engineering department at site level.

Ensure compliance with contract drawings, specifications and construction programmes.

### Required Experience / Job Skills:

Candidates must have a minimum of 2 years experience working in the CP industry working on Construction protections and have previous experience of completing routine CP inspection.

Candidates will be educated to GCSE standard or equivalent and also need to have acquired ICORR Level 1 certificate or have the ability to obtain such within 12 months.

Candidates will be computer literate, have good communication skills and have a valid UK driving licence which is an essential pre requisite of this role.

A company vehicle will be provided.
