

Current Vacancy

Electrical Technician Oil & Gas

Who we are

BPA, owned by BP and Shell, is the UK's leading provider of engineering and operational services to clients in the onshore oil and gas pipeline and terminal sector.

Selection process

Our recruitment and selection processes are designed to ensure fairness and consistency when selecting the right person for the job.

We use competency based interviews and technical assessments to determine what you understand about the role and what you can bring to BPA.

BPA Rewards and Benefits

Competitive pay
25 days holiday
Personal Pension Plan
Bonus scheme
Life assurance
Childcare vouchers
Excellent opportunities for training and development

How to apply

If you are interested in any of BPA's vacancies, please email your CV, stating your salary expectations to hr@bpa.co.uk

It is our aim to acknowledge your applications within 48 hours of receipt and we will contact you again should your application be shortlisted for an interview.

Location: Tamworth (Kingsbury)

We currently seek to recruit an Electrical Technician to undertake electrical maintenance and inspection duties to meet the requirements of planned maintenance schedules and respond to breakdowns on storage and pipeline systems operated by BPA at Kingsbury and within the North Sector of BPA.

Duties will include:

Working to planned maintenance, inspection procedures and schedules.

Responding to corrective maintenance and inspection defects, maintaining records and plant history files.

Maintaining up to date maintenance records utilising the company Computerised Maintenance Management System [CMMS].

Maintaining and managing essential spares stock and identify obsolescence.

Supervising colleagues and contractors in safe systems of work, including preparing risk assessments, work procedures, method statements and gas testing procedures.

Fulfilling the role of Authorised Electrical Person including authorisation for HV working.

Deputising for the Electrical Supervisor.

Required Experience / Job Skills:

To fulfil this role we are looking for candidates that have a recognised qualification in a relevant electrical discipline to NVQ level 3 or equivalent standard.

Previous supervisory experience of staff and contractors is required and candidates will need to have had 'hands on' maintenance and fault finding experience of electrical plant and equipment. In addition, knowledge of electrical safety standards and regulations including requirements for hazardous area electrical equipment and HV systems is sought.

Previous operational experience within the oil, gas or other bulk processing industry is desirable as is a knowledge of relevant safe working practices.

Please note that a UK driving licence will be required and a Company Van will be provided.

Closing Date: Wednesday 31 July 2019 at 10:00am

Interview Date: Monday 5 August 2019 (TBC)
