Recruitment  
Information

## Current Vacancy

## Systems Technician Oil & Gas

### Who we are

BPA, owned by BP and Shell, is the UK's leading provider of engineering and operational services to clients in the onshore oil and gas pipeline and terminal sector.

### Selection process

Our recruitment and selection processes are designed to ensure fairness and consistency when selecting the right person for the job.

We use competency based interviews and technical assessments to determine what you understand about the role and what you can bring to BPA.

### BPA Rewards and Benefits

Competitive pay  
25 days holiday  
Personal Pension Plan  
Bonus scheme  
Life assurance  
Excellent opportunities for training and development

### How to apply

If you are interested in any of BPA's vacancies, please email your CV, stating your salary expectations to [hr@bpa.co.uk](mailto:hr@bpa.co.uk)

It is our aim to acknowledge your applications within 48 hours of receipt and we will contact you again should your application be shortlisted for an interview.

Location: Kingsbury (Tamworth) and Buncefield

We currently seek to recruit two Systems Technicians to support the Systems Manager in the day-to-day operation, maintenance and development of the Operational Technology (OT) systems within BPA's operating contracts.

### Duties will include:

Maintaining competency as an Authorised Electrical Person (AEP) for work on electrical systems.

Collaborating with Engineers during the planning design and implantation stages to assist with the integration of system changes and upgraded without compromising on-going operations.

Participating in an out-of-hours call-out roster for response to breakdowns, system alarms or other operational requirements as part of a team providing 7x24hr cover.

Configuring system changes and update of operating manuals, procedures and drawings as instructed.

Positively contributing to and conduct group meetings related to planning work activities.

Reporting to other BPA management, face-to-face, by telephone and in writing as requested.

### Required Experience / Job Skills:

To fulfil this role we are looking for candidates that have experience of hands-on maintenance, configuration and fault finding on IT and OT Systems.

Experience of hands-on maintenance, configuration and fault finding on Network systems, Routers/Switches, Windows Servers and workstations.

Proficient knowledge of cyber security standards.

Proficient knowledge of standard networked IT and OT hardware and soft-ware including telecommunication systems.

Sound knowledge of Latest Edition Wiring Regulations.

Please note that a UK driving licence will be required.

For further details, please contact HR for the Job Description.
